

## Day 3 Lab Assignments

Use CSS and CSS3 styles to do the following:

(Note: You can use this site for search for any image you want to the assignments: <https://www.shutterstock.com>).

- 1- Make contact card with rounded corner and shadow, like the following:

- 2- Make simple photo gallery, and use transition to make the photos width and height increases with animation on hover.

- 3- Use keyframe animation to make animated search input like the one on the following demo: [https://www.w3schools.com/howto/tryit.asp?filename=tryhow\\_css\\_anim\\_search](https://www.w3schools.com/howto/tryit.asp?filename=tryhow_css_anim_search)  
(The demo is made with transition, change it and make it **using keyframe animation**)
- 4- Use CSS3 columns on any paragraph.
